JES3 is Dead! Long Live JES3plus™!

LUNCH & LEARN

Speaker:

Ed Jaffe

Chief Technology Officer

Phoenix Software International

Description:

Come to this session to learn about the current status of JES3. Phoenix Software International has licensed the JES3 source code from IBM with the intent of extending the life of that product indefinitely through the launch of JES3plus™. Read the original October 2, 2019 press release.

Learn some of the backstory behind how Phoenix Software came to license a z/OS® core component and what you can expect from JES3plus.
